Dear Mr. Washington:

The Federal Bureau of Prisons (BOP) received your Freedom of Information Act/Privacy Act (FOIA/PA) request. Your request has been assigned a number and forwarded to the processing office noted below. Please make a note of the request number and processing office as you will need to include it in any correspondence or inquiry regarding your request. A copy of the first page of your request is attached to help you more easily keep track of your request.

FOIA/PA Request Number:

2019-01225

**Processing Office:** 

Mid-Atlantic Regional Office

The time needed to complete our processing of your request depends on the complexity of our records search and the volume and complexity of any records located. Each request is assigned to one of three tracks: simple, complex, or expedited. Due to the large number of FOIA/PA requests received by BOP and the limited resources available to process such requests, BOP handles each request on a first-in, first-out basis in relation to other requests in the same track. Your request was assigned to the complex track and placed in chronological order based on the date of receipt.

We determined unusual circumstances exist as the documents responsive to your request must be searched for and collected from a field office, and/or the documents responsive to your request are expected to be voluminous and will require significant time to review. Because of these unusual circumstances, we are extending the time limit to respond to your request for the ten additional days provided by the statute. Processing complex requests may take up to nine months. Pursuant to 28 C.F.R. § 16.5(b) and (c), you may narrow or modify your request in an effort to reduce the processing time.

Pursuant to 28 C.F.R. § 16.10, in certain circumstances we are required to charge fees for time spent searching for or duplicating responsive documents. If we anticipate your fees will be in excess of \$25.00 or the amount you have indicated you are willing to pay, we will notify you of the estimated amount. At that time, you will have the option to

reformulate your request to reduce the fees. If you requested a fee waiver, we will make a decision whether to grant your request after we determine whether fees will be assessed for this request.

If you have any questions or wish to discuss reformulation or an alternative time frame for the processing of your request, please feel free to contact the MXR at 301-317-3100 or the Federal Bureau of Prisons' (BOP) FOIA Public Liaison, Mr. C. Darnell Stroble at 202-616-7750, 320 First Street NW, Suite 936, Washington DC 20534, or ogc\_efoia@bop.gov. You can also check the status of your request on line at http://www.bop.gov/PublicInfo/execute/foia.

Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. # Administrative Remedy No. 896938-A1 Part B - Response

This is in response to your Central Office Administrative Remedy Appeal, wherein you allege staff misconduct. Specifically, you alleged that on March 7, 2017, you were assaulted by staff and that staff are now attempting to cover up the assault. For relief, you request an investigation and that civil and criminal charges be filed against staff at USP Canaan.

We have reviewed the documentation related to your appeal and, based on this review, we concur with the manner in which the Warden and Regional Director addressed your concerns. Staff conduct is governed by Program Statement 3420.11, Standards of Employee Conduct, and the Bureau of Prisons takes seriously any allegation of staff misconduct, such as those you raised in this remedy cycle. We look into matters which may constitute inappropriate conduct and refer them to another component of the Bureau of Prisons for appropriate action. The matter has been forwarded to the appropriate Bureau component for further review.

Additionally, no inmate is entitled to be advised of the results of any inquiry or any action pursued against staff. You should also be aware such reviews may or may not include interviewing you and no inmate is entitled to be apprised of the progress, outcome, or disposition of any review of alleged staff misconduct. Similarly, any action taken against staff, if any are deemed necessary, will not be disclosed to you.

Accordingly, this response is provided for informational purposes only.

### SUBJECTIVE:

COMPLAINT 1

Provider: Wood, B. PA-C

Chief Complaint: Trauma/Injury

Subjective:

pt presents today to address ongoing issues with headache, difficulty with

concentration/memory; as well as left shoulder/arm pain associated with numbness and

tingling sensations.

pt claims this began after an altercation with staff while in SHU (refer to note 3/7/17). pt states that he hit his head on the metal leg post of the bed and sustained a small laceration above his right eye. pt also states that while being placed in cuffs, his left arm was hyper-extended, and feels this is the reason he continues to experience left shoulder/arm pain. pt was seen for these issues on 3/15/17. At that visit, he was evaluated and prescribed IBU. pt was seen again on 3/21/17 and taken off of the IBU (due to possible connection with rash) and instead advised to purchase otc acetaminophen. Then, prior to transfer from the last institution to here, pt was seen 4/18/17, pt continued to c/o the same issues: intermittent headaches, left arm pain. Per the plan, pt was to be scheduled for an x-ray of the neck to see if degenerative disc disease or OA was causing the referred pain. there was also consideration for PT eval. However, this was not completed due to the transfer.

pt would like to pursue these recommendations due to continued problems. pt describes headaches as starting from the back of the head extending to the top. pt denies any throbbing, dizziness, lightheadedness, fatigue, sensitivity to light or sound, visual changes, nausea or vomiting, pt describes the shoulder pain as an achiness that radiates down the arm with occ pins/needles in left hand/fingers. pt stopped working out due some limitations from the left shoulder, pt is not currently taking anything for headache or arm pain.

FALL RISK ASSESSMENT: The patient was questioned at today's encounter and denies any mobility problems and has no history of falls less than 3 months, no secondary diagnosis to suggest a fall risk, does not use an Ambulatory Aid, has normal gait/transferring, and is oriented.
